

Sins, Switzerland; 23<sup>rd</sup> of March 2017

## PRESS RELEASE

3A Composites AIREXBALTEKBANOVA highlights the success of its advanced solutions at the JEC WORLD 2017 in Paris

- Empowering customers to make the best choices for the optimum applications' performance.
- 3A Composites AirexBaltekBanova showcased its new products **AIREX<sup>®</sup> T10.60** and **BALTEK<sup>®</sup> VBC QX**.

The JEC WORLD – held from the 14<sup>th</sup> to 16<sup>th</sup> of March at Paris – is the largest international tradeshow in the composite industry. Organized annually, it brings together representatives from across the composite business, with more than a hundred countries represented. This year the JEC WORLD recorded a 2-digit attendance growth (+10%) compared to 2016. Through its participation, 3A Composites highlighted the success of its extensive product line, advanced capabilities and latest innovations based on PET foam and balsa composite materials: **AIREX<sup>®</sup> T10.60** and **BALTEK<sup>®</sup> VBC QX**.

“3A Composites AIREXBALTEKBANOVA success lies on its wide product line and key differentiators it provides, adding value to the offering, and to the final customers, enhancing the optimum application performance. This strategy proves the record visitors and commitments we have year over year at the tradeshow” said **Roman Thomassin**,

# AIREXBALTEKBANOVA

**CEO of 3A Composites Core Materials** division, producer and manufacturer of the AIREXBALTEKBANOVA products.

“The JEC WORLD is an important platform to showcase globally our innovations and key differential values”, said **Eric Gauthier, President of Global Key Accounts of 3A Composites Core Materials.**
