PRESS RELEASE

3A Composites Core Materials acquires Solvay's TegraCore™ foam

3A Composites Core Materials has agreed to acquire SOLVAY's TegraCore™ PPSU resin-based foam that will become part of the portfolio under the name AIREX® TegraCore™. Both companies agreed to continue their collaboration in further development of AIREX® TegraCore™.

"We are excited to complete our high-end portfolio with the acquisition of TegraCore™ foam, which was all these times solely produced at our site in Switzerland. This product addition will reinforce our offering and allow further developments in markets targeted for this foam – the aerospace, marine and rail markets," says Eric Gauthier, CEO of 3A Composites Core Materials.

AIREX® TegraCore™ is a lightweight recyclable polyphenylsulfone (PPSU) thermoplastic foam with outstanding fire-retardant properties for complex shapes in environmental demanding conditions. Eric Gauthier mentions: *"AIREX® TegraCore™ will complete our high-end portfolio of AIREX® foam cores with outstanding FST applications such as our AIREX® R82 and T90 foams"*.

SOLVAY and brands marked with ™ are trademarks of SOLVAY S.A., its subsidiaries, or affiliates.

About 3A Composites Core Materials

3A Composites Core Materials is a global organizational unit within the 3A Composites Group, a part of Schweiter Technologies (SIX Swiss Exchange: SWTQ), with operations in Europe, North and South America, China, and Papua New Guinea. With more than 80 years of experience in sandwich technology, its broad portfolio of high-performing and sustainable core materials allows partners worldwide manufacturing more durable, sustainable, and energy-efficient end products.

About Solvay

Solvay is a science company whose technologies bring benefits to many aspects of daily life. With more than 21,000 employees in 63 countries, Solvay bonds people, ideas and elements to reinvent progress. The Group seeks to create sustainable shared value for all, notably through its Solvay One Planet plan crafted around three pillars: protecting the climate, preserving resources and fostering better life. The Group's innovative solutions contribute to safer, cleaner, and more sustainable products found in homes, food and consumer goods, planes, cars, batteries, smart devices, health care applications, water and air purification systems. Founded in 1863, Solvay today ranks among the world's top three companies for the vast majority of its activities and delivered net sales of €10.1 billion in 2021. Solvay is listed on Euronext Brussels (SOLB) and Paris. Learn more at www.solvay.com
